

Dr. Barry Gordon

**President/Chief Medical Officer
Compassionate Cannabis Clinic**

Dr. Barry Gordon, a native of Akron, Ohio, and a Graduate of The Ohio State University College of Medicine, practiced as a Board-Certified Emergency Medicine Specialist on America's front lines of healthcare for over 34 years. He is now a recognized leader in the medical cannabis field, having established one of Florida's most active Medical Cannabis practices, The Compassionate Cannabis Clinics of Venice in January of 2017. He has served as the Chairman of the Medical Subcommittee of the Dept of Agriculture and Consumer Affairs Medical Marijuana Advisory Committee. Very few others have been witness to the integration of Medical Cannabis into the lives of thousands of patients, and to the benefits and safety of the cannabis plant. When not actively seeing patients, or traveling, lecturing and teaching about medical cannabis, Dr. Barry enjoys everything outdoors, and following his beloved Cleveland sports franchises.
